

AMENDMENTS TO THE SPECIFICATION

In the Specification

On page 2, after the description of Figure 5, add:

- - Figure 6 the piston-cylinder unit in section, with the new roller holder having rollers without through-bores;

Figure 7 a view of the new roller holder unit having rollers without through-bores.

- -

On page 3, replace the sentence "One may even realize an embodiment without through-bores of the rollers 2." with the sentence – "One may even realize an embodiment without through-bores of the rollers 2, as shown in Figures 6 and 7."
